

NEW TOWN FOR CLARK ROUTE

Walter James of Millard Closes Deal With Salt Lake Route.

JOHN W. GATES GETS HARRIMAN INTERESTS IN KANSAS.

As the result of successful negotiations between the Salt Lake Route and Walter James, a well-known mining and stockman of Millard county, a new town is to be laid out on the San Pedro a few miles south of Milford. Mr. James was in Salt Lake yesterday, a guest at the Cullen. He said that he had engaged an engineer to draw up the plans.

The railroad has been watering at my place for some time, said Mr. James last evening. "There are large natural springs which furnish plenty of water, but there is none between this point and Lund, about thirty-five miles further south. Terms have been agreed on and a new town is a certainty. The place has fine advantages for residence purposes and is bound to be a good railroad and stock town."

"We plan to have about 250 lots laid out and have been assured that there will be no difficulty in securing a population. There are now about 250 railroad workmen in the neighborhood for the San Pedro. I intend to go ahead at once with the work of laying out a town-site."

Some idea of how important the new town may become can be gained from the statement that the Salt Lake Route may make it the end of the line. It is in the midst of a great agricultural and sheep district. From this district have been shipped this spring 1,000,000 pounds of wool, valued at \$200,000.

GETS HARRIMAN INTERESTS.

John W. Gates Busy at Kansas City—Knott to Leave Southern.

Kansas City, May 10.—The Star today says: John W. Gates and the Holland stockholders have secured the Harriman interests in the Kansas City Southern Railway company and on May 15 Stuart R. Knott will be retired as president. Mr. Knott will be succeeded by J. A. Ellison, now general manager of the Cincinnati, Hamilton and Dayton railway, who, up to 1902, was president of the Kansas City Southern.

It is said that plans have definitely been made to operate the Kansas City Southern in the future with one of the north grain carrying lines, either the Burlington or the Chicago, Milwaukee & St. Paul. It is stated also that the new interests in control will at once extend the line from Shreveport, La., to New Orleans, making it one of the shortest lines to two Gulf ports, Port Arthur, the present terminus, and New Orleans.

Stuart R. Knott, who will be retired as president, will go with the Harriman interests and it is said, will be given a position exceeding in importance the one he has held as the head of the Kansas City Southern.

EXPRESS BREAKS RECORD.

Salt Lake Route Sends Three Packed Sleepers Southward Last Night.

The Los Angeles express was a record-breaker last night from the standpoint of number of passengers. Approximately 150 persons were booked, and of these fully forty-five held through tickets. There were two standard sleepers, in which every berth was taken, and in the single tourist sleeper there were few empty berths. The officials of the passenger department were elated last night at the conditions which prevailed during the second week of regular passenger service.

A campaign of education is being waged by the officials of the matter of official designations of the road, and of the through trains. The official name of the San Pedro, Los Angeles & Salt Lake is the "Salt Lake Express." The through night train at 8:30 o'clock from Salt Lake to the coast is known as the "Salt Lake Express," while the train leaving Los Angeles at 6:30 a. m. for this city is the "Los Angeles Express."

LAGOON ROAD IMPROVED.

Improvements Being Made in Bamberger Line at Cost of \$25,000.

The rolling stock of the Bamberger road has been thoroughly overhauled and improved for the season about to begin, and in addition heavier rails are being laid at a cost of about \$25,000. Sixty-pound instead of forty-pound tracks are being secured. According to the Acting Manager Sidney Bamberger, the lagoon road will be in better shape this summer than it has ever been.

Nearly all the steel has been delivered from Colorado and a large gang of workmen is engaged in laying the steel from Bountiful toward Farmington. Several fills are being made, among these one at the long trestle just south of the resort.

Track now extends four miles north of Lagoon, the first of the Ogden extension. For summer excursions, it is announced, through trains will be run between Salt Lake and the resort, leaving the Kaysville line to take care of intermediate traffic. Already a number of bookings have been made for excursion parties.

GAMBLING HOUSES CLOSED DOWN FOR THE FIRST TIME IN BINGHAM JUNCTION

Gambling was closed up at Bingham Junction last night by the county officials without any warning or announcement. Orders were issued to Deputy Sheriff Ira Beckstead to stop every game in the town, and if any attempt was made to reopen them, to arrest the gamblers who are running the games. The house supposed to be the manager of the Thomas Osbourn on Main street, Bingham Junction, was equipped with five games, and all were running full blast. The door was guarded by a watchman and everybody was admitted. Several other games were also being run on the sly in the rear of two or three buildings in the town. Poker games are also said to be running and it will evidently take two or three days to close them all up. The houses have not been paying any license and no application has been made to the county for a license. No definite reasons have been given out in the town as to why the games were closed last night, and it is doubtful whether they will be granted a permit even if an application be made under the same management.

Information was received last night that several men interested in the gambling houses in Salt Lake were in Bingham Junction, and the houses there were simply braced for Salt Lake's denials. A report reached Salt Lake that some of the games were open all night, but it is expected that every gambling game will be closed by tonight.

WANT AN APPROPRIATION.

Poultry Association Desires to Make Exhibit at Portland Fair.

The poultry associations throughout the state are working for an appropriation from the Utah commission of the Lewis and Clark exposition to assist in defraying the expenses of a state poultry exhibit at the fair at Portland. Prominent poultrymen argue that Utah has a line of poultry that, if exhibited, must attract attention and win prizes. Utah birds have always taken premiums wherever exhibited, and competent judges say that they would win in the contest at Portland a creditable share of the awards. The road workmen are the only association which have year after year carried on annual exhibitions without receiving a cent of money from the state in assistance. A number of poultrymen are going to solicit the fair at Portland, and if a few hundred dollars is appropriated the exhibit will be one that must do Utah credit.

The state of Washington has made a substantial appropriation and has commissioned H. H. Collier to collect the best chickens which the state can produce and exhibit them at the fair.

PRAISE FROM VISITORS

Los Angeles Delegation of Business Men Find Much to Admire in Salt Lake.

The business men from Los Angeles who arrived in town several days ago for the purpose of sight-seeing and at the same time looking over the local situation here for the matter of possible future investments, went out to Park City yesterday for a jaunt and returned to the Knottsville in the evening.

Robert C. Gillis, who is acting as spokesman for the delegation, said after the evening: "This visit of ours has been beneficial in more ways than one. We have learned much of the value of the houses in Bingham Junction, and the houses there were simply braced for Salt Lake's denials. A report reached Salt Lake that some of the games were open all night, but it is expected that every gambling game will be closed by tonight."

General Sherman, to whom Mr. Gillis referred, is well known to the outside world as the man who has given to Los Angeles the name of "The City of Angels." He was born in the Pacific states, and was educated along scholastic lines, he went into the army and served in the Mexican war, and was later in the Civil war.

At that time he had several friends who believed that he would pass away on her birthday.
